her are to work full time this week.

RAHLROADS TO GET THEIR

FUEL THE SAME AS OTHERS

Italifonds hereafter will purchase their coid at the full market price and cars will be evenly distributed at all mines, under an arrangement reached by the railfond and national feet administrations. The plan has been accepted after President Wilson intervened to settle differences between Faci Administrator Garfield and John Richton Williams, director of purchases for the railroad administration objected to sales of coal te railways at prices has the set of the approach of the system whereby allroads gave a 169 per cent car supply to mines supplying coal for railroad use, while other mines suffered to the arrangement, it is pointed out, will be that all consumers will share allbe.

railroads gave a 100 per cent car supply to mines supplying coal for railroad use, while other mines suffered from car shortuge. One effect of the arrangement, it is pointed out, will be that all consamers will share alther in coal distribution.

Successful operation of such a synthm. In the opinion of officials, will serve to allay the labor turnest arising through continued idleness of sime mines and put an end to an exodus of mine workers which had reached alarming proportions. Equivalization of orders at the mines, it is declared, will serve the purpose of materially increasing the volume of coal produced and will stabilize manufacturing conditions, which have been distributions by the face shortuge. In taking a hand in the situation the president followed his previously announced policy that in fixing prices the government should enjoy no price reductions not shared with the general public.

The higher prices the government will may for coal for the railroads will mean that about \$4.8,00,000 more will have to be spent for railroad used may be made up in Increased freight rules, if necessary.

HUNDRED THOUSAND FREEGHT

than ever before to secure cost next winter.

Although authorized to make an advance of nearly fifty cents per ton, idaho dealers have decided not to take such action for the present, as they desire to do everything possible to encourage the storage of coal during the next few weeks.

Spring Clothes

If springtime suggests the need of a new suit, it is well enough to realize that a suit bought now will save you \$5.00 to \$10.00 on the price of the same quality if bought next fall. And the price is not the only difference. Good meterials are very scarce and the quality is bound to be sacrificed to maintain established prices.

The styles and patterns we are now showing are approved by the Board of Clothes Designers. Many are of weight and color suitable for all year wear. We want to show you our lines of Suits, Hats, Caps, Shirts, Underwear and Furnishings of all kinds for men and boys while our stocks are full. Everything to use, eat and wear.
